

Is your organization struggling to provide quality, affordable training to your employees? Reduce the cost of training for your private contracting or consulting firm, government transportation agency, or academic institution by choosing a prepaid per-person or bulk-hour training subscription.

AASHTO Technical Training Solutions robust curriculum offers online training in the areas of construction, maintenance, materials, pavement preservation, traffic and safety, and employee development. Over 90% of our 280+ courses are recommended for professional development hours (PDHs). To date, more than 500,000 trainings have been completed, and the course library continues to expand and be updated to keep pace with new and evolving technologies.

Subscription Pricing Options

Subscription options allow organizations to purchase training courses at discounted prepaid rates for their employees or members. Available options include bulk-hour and unlimited, annual per-person pricing.

Unlimited, annual per-person price:

This option gives users unlimited access to the entire Technical Training Solutions curriculum for one year. Each user's year begins on the date their organization signs up for the subscription.

Unlimited courses for 5 users @ \$600 per user = \$3,000
Unlimited courses for 10 users @ \$550 per user = \$5,500
Unlimited courses for 20 users @ \$500 per user = \$10,000

Optional bulk-hour price:

This option gives users the ability to use their purchased hours towards any of the courses in the curriculum. Course costs vary by course duration, and total course hours are noted in each course description and count against a user's bulk-hour count accordingly.

50 course hours @ \$40 per course hour = \$2,000
100 course hours @ \$35 per course hour = \$3,500
200 course hours @ \$30 per course hour = \$6,000

***Standard rates are \$50 per course hour. AASHTO members may purchase courses for \$25 per course hour. AASHTO member states that financially contribute to AASHTO Technical Training Solutions as a technical service program already have unlimited training available for all employees and do not require a subscription.**
