

# 2022 INTERIM REVISIONS INSTRUCTIONS AND INFORMATION

## General

AASHTO has issued proposed interim revisions to the *Manual for Bridge Evaluation*, Third Edition (2018). This packet contains the revised pages. They are designed to replace the corresponding pages in the book.

## Affected Articles

Underlined text indicates revisions that were approved in 2021 by the AASHTO Committee on Bridges and Structures. ~~Strikethrough text~~ indicates any deletions that were likewise approved by the Committee. A list of affected articles is included below.

All interim pages are displayed on a yellow background to make the changes stand out when inserted in the second edition binder, and to differentiate them from earlier interims. They also have a page header displaying the interim publication year. Please note that these pages may also contain nontechnical (i.e., editorial) changes made by AASHTO publications staff; any changes of this type will not be marked in any way so as not to distract the reader from the technical changes.

### 2022 Changed Articles

SECTION 6: LOAD RATING

6A.5.12 (*removed in its entirety*)
